http://vtu.ac.in/

Skills

Swift	Objective-C	HTML	CSS	Bootstrap	Auto-layout	Core Animation
WatchKit	Push Notification	Cocoapods	Core Data	Realm	Git	Subversion
Design Patterns	Stripe	Apple Pay	StoreKit	Unit testing	UI testing	Shopify

Apps

Paytm

https://itunes.apple.com/in/app/paytm-payments-bank-account/id473941634?mt=8

Paytm is a digital payments platform that serves 1/3rd of Indian population. I am part of the iOS core team and Paytm travel.
- Lead the mobile team to launch Paytm Hotels. Worked closely with Product and design teams to provide a great experience.
- Modularised Paytm app into pods. I was responsible for creating network SDK and pod for Paytm Travel
- Improved the app launch time and contributed to the app size reduction efforts.

Guidepost Parent

https://itunes.apple.com/app/apple-store/id1066690205

Guidepost Parent is an app for parents, with tools to encourage positivity, engagement, and learning.
- Worked as an independent contributor taking care of end to end development
- Implemented Auto-Renewable Subscription
- Implemented deep links using universal links

NDTV

https://itunes.apple.com/in/app/ndtv/id377869410?mt=8

NDTV is the widely used native news app in India. Dynamic news for special events, dynamic type text styles, customised push notification, dedicated Hindi content are its special features.
- I redesigned the app for iOS7 with an easy to navigate and pleasure to use layout.
- This app was iOS7 ready on the day of iOS7 public release and it set the benchmark for news apps in India

WAND

https://itunes.apple.com/in/app/wand-mobile/id421031585?mt=8

WAND mobile apps are developed for PRO Unlimited, a premier provider in offering global contingent workforce management solutions. Available features empower managers to check on urgent hiring requests, review candidates & SOW

Apps

quotes, request interviews.
1. Implemented workforce module. Implemented linear and circular graphs
2. Implemented watch app

Chef"D
Product is not active

Chef'd is the meal store delivering fresh, high-quality ingredients
- Implemented instant checkout and integrated Stripe, PayPal and Apple Pay
- Led the iOS team for the first version of app integrating Shopify and recommendation engine.

iSpect

https://itunes.apple.com/us/app/ispect/id905912432

iSpect is a site inspection app used for construction purpose. It supports features such as inspection, reporting bug and tracking solutions.
- Provided offline first feature by using Coachbaselite
- Adopted VIPER architecture
- Implemented offline Photo uploader

Other apps to which I have contributed include
- ESPN cricinfo - an app for all cricketing news
- KNA - App for Kuwait Nephrology Association
- iControl - an construction report generation app

Other Projects

Perne Kshetra

http://pernekshetra.com/

Pernekshetra.com is a website created for the temple of our village. I was involved in the content preparation, design and development.

Saudi Broadcasting Corporation

https://itunes.apple.com/us/app/asm-wshahd/id1001907602

This app shows the programs, videos, radio from all the broadcasting channels of Saudi Arabia, organized by the Ministry of Culture and Information

Talks

Build powerful apps that empower everyone - Accessibility (Swift Developers Meetup @Hotstar, 2018)
Open source, Git and Github (Vidya Vardhaka College of Engineering, 2018)
Simplified JSON parsing with Codable Protocol (Swift Developers Meetup @WeWork (EGL), 2018)
